Keyword : news clippings

Abstract:

PT. Telekomunikasi Indonesia, through Multimedia Division to improve service www.plasa.com site. One is a feature that will display news clippings. This feature allows visitors to the site www.plasa.com get the latest news stories from several news portal in Indonesia. As a partner who is appointed to make this happen, PT Asia Abdijaya Sentosa very proud to create an automated program that the first news headline makers in Indonesia.

Given the complexities in the manufacture of automated programs is very high, sometimes arise in its implementation problems. But hopefully with the skills, abilities and experience that exists, all these obstacles can be overcome, so what will be displayed on the writing of this study have better benefits to all parties.
