Keywords: FKMI

Abstract:

At this time, especially in Indonesia, in connection with the reform era and on behalf of democracy, the more established organizations, including the student organization that calls itself FKMI or abbreviation Communication Forum of Islamic Students, which turned out to interest students and female college students interested in becoming a member FKMI this quite often because of their interest in the activities offered by FKMI.

A student can become a member by registering directly or through Volentir kesekretariat here is someone who has become a member and active in all FKMI FKMI activities and have the right to recruit as many people to join become a member.

FKMI offers to its members than to know each other more with students from other campuses, they can also get additional knowledge about the religion of Islam, Science and Technology (Science and Technology), law, politics, literature and others by asking them an expert in his field when FKMI seminar is being held.

In improving its existence as an organization, we need a good application programs to process data processing becomes faster and better.
