Abstract:

Media information is a means to convey a message or information can we receive, both orally and in writing, and various kinds such as newspapers, television, radio and komputer. Internet is one medium of information very quickly. The required information must be information very quickly, accurately, and can be held responsible for authenticity. Ecumenical Fellowship (PO) is one of the central information and aspirations of students of Christian STMIK STI & K. Jakarta Hopefully with the PO website is expected to facilitate student / i STMIK Christian spirituality Jakarta to obtain information as desired.
