Keyword : Saving and Credit Cooperative System in Vocational High School 41,
Visual Basic 6.0

Abstract:

Cooperative is an association of organizations based on the principle of kinship. Therefore, the school was made co-schools include 41 vocational schools located in Jl. Zoo Kingdom comp tin, Pondok Labu. This cooperative provides several business units, one of them is a savings and loan.

In carrying out its activities, sometimes have a problem when a member wants to save or to get a loan. Because there are some members who do not understand do not even understand the rules that already exist, so that it can inhibit or slow in submitting the report.

With the new system has been computerized to assist cooperatives in addressing the problem, so that cooperatives can accurately, quickly and accurately in processing and obtaining data.
