Abstract:

Marching Band is a sentence that may be alien in the eyes of some of the students. See how this develops, Marching Band is less enthused by some of the students, because it was considered less interesting, boring, and a waste of time. To the authors intend to introduce the Marching Band through a Web site where students who are surfers can search for, obtain various types of information related to the Marching Band "Bulldozer", and can join a community marching band "Bulldozer" can further know about marching band, and can interact between members of the marching band.

The author also intends to prevent the students from the negative actions that are outside of school hours, by following the positive activities, one of them by following the activities of the marching band.
