**GRANTS BY ISLAMIC VISUALIZATION USING MICROSOFT VISUAL BASIC 6.0**

Saputro Widodo, 30499307, Jalinas, SKom, MM

Abstract:
So far, there are still many Muslims who do not understand fully about matters relating to the issue of grants. Though many of them actually want to participate granted possessions in the way of Allah SWT. Lack of adequate information about the grants is a major cause confusion for some people of Muslims.

This application is made to provide alternatives in providing information about grants by using computerized media so that the necessary information can be found quickly. Further, the application was created with Visual Basic 6.0 programming language with the intention that generated the view that this application is the user interface, in other words easily used by different types among the users.
