Abstract:

VRML (Virtual Reality Modeling Language) is one programming language specifically designed to create a 3 Dimensional object.

The purpose of this paper is to make the My Editor, thus simplifying the writing of orders - orders in VRML, because it can avoid opening the windows (views) is more than one window. And also can save time in the manufacture of 3 Dimensional Objects, and also saves the amount of memory used. Because to avoid calling the window in one view.

In Making My Editor, the author uses HTML (Hyper Text Markup Language) and VB Script to create and design the My Editor.
