CONTENTS OF ARTICLES

PAGE

Design and Economic Analysis of a Photovoltaic System: A Case Study

65-73

C.O.C. Oko , E.O. Diemuodeke, N.F. Omunakwe, and E. Nnamdi

Development of Formaldehyde Adsorption using Modified Activated Carbon – A Review

75-80

W.D.P Rengga , M. Sudibandriyo and M. Nasikin

Process Optimization for Ethyl Ester Production in Fixed Bed Reactor Using Calcium Oxide Impregnated Palm Shell Activated Carbon (CaO/PSAC)

81-86

A. Buasri , B. Ksapabutr, M. Panapoy and N. Chaiyut

Wind Resource Assessment in Abadan Airport in Iran

87-97

Mojtaba Nedaei

The Energy Processing by Power Electronics and its Impact on Power Quality

99-105

J. E. Rocha and B. W. D. C. Sanchez

First Aspect of Conventional Power System Assessment for High Wind Power Plants Penetration

107-113

A. Merzic , M. Music, and M. Rascic

Experimental Study on the Production of Karanja Oil Methyl Ester and Its Effect on Diesel Engine

115-122

N. Shrivastava, , S.N. Varma and M. Pandey
