NOVELL NETWARE 3.12 INSTALLATION ON LOCAL AREA NETWORK (LAN)

Tri Pujiyanto, 30494523, Eko Hadiyanto, SSI, MM

Abstract:
With the LAN network we can get information between Workstation Workstation with each other and can speed information services and can save costs compared to using a PC.
With the LAN, then we can apply the multiuser applications, such as accounting systems. Some people can enter a transaction similar to the job immediately resolved. Besides, the use of Novell Netware 3:12 is very effective and efficient and easy in the install process.
