Keywords: Export Information System Analysis

### **Abstract:**

At PT. AMICO KNIT INTERNUSA experiencing problems in their operations. By implementing a system that is running now export processes can run well, this can be seen in the brief procedure performed by the company so that the reception of goods to be exported can be sent according to schedule determined by the importer / buyer. With this system indirectly provides a huge impact for exporters seen an increase in production quantities, the faster delivery of goods, the more value goods exported. So that the importer is more give full confidence increase purchases from this company because the company was able to achieve the targeted production of goods (sweaters) before the time specified.
