Introduction

Strategy generally known as a coherent set of actions aimed at gaining a sustainable advantage over competition improving position vis-à-vis customers or allocating resources. Tactical planning refers to short-range planning that is oriented towards operations and is concerned with specific and short-range details. <tbody>
<tr>
<td>EXTERNAL OPPORTUNITIES (O)</td>

</tr>
<tr>

\[
\text{Price} + \text{offers} + \text{brand} + \text{competitive marketing strategies} = \text{poke} (\text{shock- knock}) \text{ strategy}
\]
