1. INTRODUCTION

Delivering speech directly spoken or through a written text needs a compex skill or cempetence. It is not easy to create a writing which contains so many important ideas to be understood by others, especially to influence the people so they will finally agree and accept all the ideas delivered by the speakers/orators or writers. One of popular public political figures that

had given much influence towards American people is Martin Luther King Jr.. He was a great orator who produced famous speeches. His speeches created many kinds of reaction like and dislike as reflected in his speeches that contains pro and contra arguments. Through his speeches in front of the public, he gave all of his arguments supported with logical and factual reasons so the public could accept all of his arguments that finally could support

him to do struggle for liberty, equality and freedom.

Related to the speech delivered by Martin Luther King Jr. in argumentative text, as previously stated this text contains some pro and as important arguments informations to the listeners. These speakers or writers deliver their arguments in their own way related on some significant current issues in society. This research only concerns on pollitical argumentative speech. In these speeches, there are pro and contra arguments delivered to the listener that will be the discussion of this research.

The argumentative speech mainly discussed in this research is the organization of pattern. Organization of pattern is very significant as the strategy to arrange the ideas in correct order. The good technique of arranging ideas from one paragraph to other paragraphs will lead the text into its success in delivering ideas and influencing the listeners' point of view. The well arrangement of ideas in argumentative speech will make the listeners easy to understand the ideas and messages delivered in it.

2. REVIEW OF LITERATURE

2.1 Argumentative Speech

An argumentative speech is a persuasive speech in which the speaker attempts to persuade his audience to alter their viewpoints on a controversial issue. While a persuasive speech may be aimed more at sharing a viewpoint and asking the audience to consider it, an argumentative speech aims to radically change the opinions already held by the audience. This type of speech is extremely challenging; therefore, the speaker should be

careful to choose a topic which he feels prepared to reinforce with a strong argument.

Argumentative speeches generally concern topics which are currently being debated by society, current controversial issues. These are often derived from topics political debates and issues which are commonly seen in the media. The chosen topic may be political, religious, social, or ethical in nature. The audience should be challenged to re-examine their long-held values, and will be asked to alter deeply held convictions based on new evidence viewpoints on the issue. Obviously, selecting a topic that is debatable is key to create an effective speech. The topic should not be something which is generally already proven, or would require enormous leap of faith or logic in order to convince the audience. The speaker should already possess a strong interest and have a deeplyheld opinion on the subject, or else his arguments will probably not come across as believable to the audience.

2.2 The Organization Pattern in Argumentative Speech

Based Buowl on (http://www.buowl.boun.edu.tr/stude nts/types of essays/ Argumentative Essay) argumentative writing has some patterns of organization of idea. All argumentative topics have PROs and CONs. Before starting writing, it is imperative to make a list of these ideas and choose the most suitable ones among them for supporting and refuting.

There are three possible organization patterns:

The example below is from

Buowl

(http://www.buowl.boun.edu.tr/stude nts/types of essays/ Argumentative Essay):

Thesis: Do Reiki instead of taking medicine.

Counter Arguments

- 1. People should trust medicine since it is effective and scientifically proven.
- 2. Serious illnesses such as HIV/AIDS and cancer cannot be treated without medicine.
- 3. Reiki, like alternative healing methods, requires a lot of time.

In creating argumentative text, there two important points to be concerned. First is the supporting ideas. This is the most important part when persuading others. We are asking some people to change their beliefs or actions. We should be supporting our ideas with such facts, statistics and/or authorities. Secondly is the Refuting opposing arguments. Before we start saying that the opponents are wrong, we should specify opposing their ideas. Otherwise, it would be like hitting the other person with eyes closed. We should see clearly what we are hitting and be prepared beforehand so that he cannot hit us back. We can do this by knowing what we are refuting (Buowl at http://www. buowl. boun. edu.tr/students/types of essays/ Argumentative Essay).

3.1 METHODOLOGY Research Method

Research is a systematic process of collecting and logically analyzing information (data) for some purpose. accurate investigation, It observation and description. In fact, every research activity must be done accurately so that the findings will lead to the formulation of scientific generalization. All conclusions are based on actual evidence (Hartoyo, 2010: 3-9).

speech at Nobel Peace Prize Acceptance.

3.3 Method of collecting Data

The benefits of the qualitative approach is that the information is richer and has a deeper insight into phenomenon under study. Qualitative research data collection time are consuming, therefore data is usually collected from a smaller sample than would be the case for quantitative approaches therefore this makes qualitative research more expensive (Libweb.survey.ac.uk/library/skill/Int roduction to Research and Managing Information Leic).

The method for collecting qualitative data is by observing data. The data is read and comprehended through skimming and scanning. The relation of one main idea of paragraph to another paragraph also becomes the concentration in reading and comprehending the organization of patterns in the speeches transcription.

3.4 Technique of Analyzing Data

The data of this research is analized through some phases. They are:

- 1) Classifying the main idea in each paragraph into pro or contra argument.
- 2) Determining the type of Organization Pattern
- 3) Discussing the use of Organization Pattern
- 4) Drawing conclusions.

3. RESULT AND DISCUSSION 4.1 Results

Based on the result of analysis in Martin Luther King Jr.'s argumentative speech, there are two

types of organization patterns used in his speech.

The first speech "I Have a Dream" by Martin Luther King Jr. uses the second pattern of organization pattern:

12	People should have hope and faith in doing struggle	truths to be self-evident, that all men are created equal." With this faith, we will be able to 1) hew out of the mountain of despair a stone of hope 2) transform the jangling discords of our nation into a beautiful
		symphony of brotherhood, 3) work together, to pray
		together, to struggle together, to go to jail together, to stand up for freedom together, knowing that we will be
		free one day.
	Conclusion	Main Messages
13	People should sing the freedom together and speak the freedom to the world.	This will be the day when all of God's children will be able to: - sing with new meaning - allow freedom ring - let it ring from every village and every hamlet, from every state and every city - speed up that day when all of God's children, black men and white men, Jews and Gentiles, Protestants and Catholics, will be able to join hands and sing in the words of the old Negro spiritual

After discussing the second pattern used in Martin Luther King Jr.'s speech "I have a dream", the next speech is delivered at Nobel Peace Prize Acceptance. This speech

uses two combinations of organisation of pattern: Pattern one and two as discussed in the table below:

Thesis Statement: The reasons of the noble prize are accepted

Table 2: Organisation Pattern of the Speech at Nobel Peace Prize Acceptance

No.	Supporting Ideas	Reasons to support the ideas
1	Remembering and memorizing the past suffering	 yesterday in Birmingham, Alabama, our children, crying out for brotherhood in Philadelphia, Mississippi, young people seeking to secure the right to vote were brutalized and murdered. only yesterday more than 40 houses of worship in the State of Mississippi alone were bombed or burned because they offered a sanctuary to those who would not accept segregation.
	Counter Argument	Refutation
2	The awarding of the Noble Prize is for the successful movement in achieving the world peace.	Why this prize is awarded to: - a movement which is beleagured and committed to unrelenting struggle; - a movement which has not won the very peace and brotherhood which is the essence of the Nobel Prize.
	Supporting ideas	Reasons to support the idea
3	The real meaning of Noble Prize Award is brotherhood, peace with no violence anymore	I receive on behalf of that movement is a profound recognition that nonviolence is the answer to the crucial political and moral question of our time the need for man to overcome oppression and violence without resorting to violence and oppression.
4.	The negros struggled across many regions in America to find the justice for them	The tortuous road which has led from Montgomery, Alabama, to Oslo bears witness to this truth. This is a road over which millions of Negroes are travelling to: - find a new sense of dignity

5	Luther refused all the injustice Luther believed that there will be a	opened for all Americans a new era of progress and hope a new Civil Rights Bill a super highway of justice as Negro and white men in increasing numbers create alliances to overcome their common problems. I refuse to accept despair as the final response to the ambiguities of history. I believe that unarmed truth and unconditional love will
	better fate for Negros	have the final word in reality.
7.	People should have faith to struggle in the future	This faith can give us: - courage to face the uncertainties of the future give our tired feet new strength as we continue our forward stride toward the city of freedom.
8	The Noble Prize is not for personal but as the representative of all the people who struggle for humanity, love and freedom	The reasons to accept the prize: - as a trustee, inspired and with renewed dedication to humanity. - on behalf of all men who love peace and brotherhood. - as a trustee, for in the depths of my hear! - for much more than an honor personally.
9	People should honour all those men who struggled for freedom	 they have sat at the controls as the freedom movement soared into orbit. Chief Lutuli of South Africa, whose struggles with and for his people, the ground crew without whose labor and sacrifices the jet flights to freedom could never have left the earth. these humble children of God were willing to suffer for righteousness sake.
	Conclusion	The Main Message
10.	The main reasons of Alfred Noble Prize Awards are for brotherhood and peace	I accept this award in the spirit of a curator of some precious heirloom which he holds in trust for its true owners - all those to whom beauty is truth and truth beauty - and in whose eyes the beauty of genuine brotherhood and peace is more precious than diamonds or silver or gold.

4. CONCLUSIONS

Based on the result of the research of organisation of pattern in Martin Luther King Jr.'s Argumentative speech, the conclusions are:

- 1. the speech "I Have a Dream" is using Pattern 2 of Organisation Pattern and "the Speech at Nobel Prize Acceptance" is using the combination of two patterns: pattern one and two of organisation pattern.
- 2. The organisation pattern in Martin Luther King Jr.'s Argumentative speech is using:
 - a. Thesis Statement

- b. Counter Argument +Refutation
- c. Supporting Ideas
- d. Conclusion.

These four elements are organized variedly. First, by organizing Counter arguments Refutation before Supporting Ideas and organizing Counter arguments + Refutation after and before Supporting Ideas (Counter argument Refutation is among Supporting Ideas).
