

DEVELOPMENT OF THE AGRICULTURAL SECTOR OF UZBEKISTAN. (CLUSTER SYSTEM)

Rahmatullayev Bobir Chorshamiyevich

Teacher, Termez branch of Tashkent State Agrarian University

Abstract

The role of the state in the system of public procurement, placement of crops and control over agricultural production is enhanced by increasing labor productivity in farms and dekhkan farms, ensuring food safety and quality, protecting the environment and the private sector. managing the provision of public services required for other purposes not provided; strengthening cooperation with the private sector in the provision of public services using public-private partnership mechanisms;

Keywords: agriculture, measure, provide, partnership, system, cluster

Introduction

In order to ensure the implementation of the Decree of the President of the Republic of Uzbekistan dated October 23, 2019 No. PF-5853 "On approval of the Strategy for the development of agriculture of the Republic of Uzbekistan for 2020-2030":

1) To approve the Program of measures for the implementation of the tasks provided for by the Strategy for the Development of Agriculture of the Republic of Uzbekistan for 2020-2030 in 2020 (hereinafter - the Program) in accordance with Appendix 1.

2) Determine that within the framework of the Agricultural Development Strategy of the Republic of Uzbekistan for 2020-2030 in 2020:

1) In the direction of "Development and implementation of state policy in the field of food security" from October 1, 2020, in order to ensure uninterrupted supply of grain to the population and prevent sharp price fluctuations, the system of intervention purchases will operate in stages. the phase is introduced. In this case:

A gradual reduction in the state order for grain of the harvest of 2021, including the introduction of market mechanisms to ensure free competition in the purchase and sale of grain; To ensure food security, it is planned to develop a mechanism for the transition from the public procurement system to the use of state reserves;

2) in the direction of "creating a favorable environment for agribusiness and supply chains", the Ministry of Agriculture of the Republic of Uzbekistan, together with the Ministry of Economy and Industry, the Ministry of Finance and other relevant ministries and departments until October 1, 2020, 2021. The analysis of the market situation from the beginning of the year and the forecast of agrotechnical measures shall be submitted to the Cabinet of Ministers with a draft resolution providing for the transition to market principles of pricing, purchase and sale.

On the implementation of the tasks set in the Strategy of Agricultural Development of the Republic of Uzbekistan for 2020-2030 in 2020

PROGRAM OF MEASURES

T / r	Name of event	Implementation mechanism	Execution time	Responsible executors
