Article history:	Abstract:
<p>Received: 2nd January 2022 Accepted: 1st February 2022 Published: 5th March 2022</p>	<p>Drug abuse and illicit trafficking is a global phenomenon that is very dangerous for the nation and state. The bad effects of drug use have touched almost all layers of society. If this condition continues, the result will be to reduce the quality of the younger generation which is an asset of the nation and state. The target of the Thematic KKN activities is the community, especially the younger generation. The method used is observation, interviews and documentation. The results of the Thematic KKN activity show that the strategy for preventing drug abuse is divided into two, namely: preventive and repressive strategies. Preventive strategies include: workshops, outreach and door to door campaigns, while the repressive strategy is to do a urine test.</p>

Keywords *Strategy, Prevention, Drug Abuse*

INTRODUCTION

Narcotics according to Article 1 Chapter 1 of Law No. 35 of 2009 is substance or medicine that comes from from type plant or no plant good synthesis nor semi synthesis that causes drop consciousness , loss of taste, reduced until relieve pain as well as cause dependency for si the user. (Ali Azhar, 2021)

Problem abuse drugs in Indonesia have very worrying . This thing show that prison residents (institutions) Correctional) reached 50% due to by case drugs (Eleanora, 2011). worry this sharpened consequence rampant circulation drugs that have been reach all layer public especially among generation young.

On year 2019 case abuse drugs estimated reached 3.6 Million start from level 10 years old until with 59 years old . If abuse drugs no capable resolved , then life nation and country in the future come threatened destroyed .(Andi Ashadi Amrullah, 2021)

Abuse drugs is complex problem where need handling by comprehensive with involve cooperation multisector Among government and role active public by sustainable and consistent (Ariwibowo, 2017).

Various effort made by Government with formulated regulation in arrange problem abuse drugs that is Constitution Number 35 of 2009 concerning Narcotics (Sudanto, 2017). Although enforcement law for perpetrator act criminal narcotics has done, however reality abuse drugs among public specifically generation young experience significant increase by him that body Narcotics National cooperates with UNG through the Thematic Community Service Program realize village Shine or village Clean drugs. this program focus on prevention, eradication, abuse and circulation dark narcotics among public specifically generation young.

Thematic Community Service Activities this implemented in village Bualemo districts for 50 days with involve 15 students. Reason election village Bualemo as location Thematic Community Service Activities because location the is location vulnerable passing dark drugs that are located be in the area mountains.

As for method used this as following : Stage *first* ; observations made by college student Thematic KKN participants who aim to identify location vulnerable abuse drugs. Stage *second* ; interview with Head of Hamlet and public village Bualemo good by live in the form of ask answer nor interview no live in the form of deployment questionnaire. Stage *third* ; documentation conducted college student with collect , find , organize , manage and take notes activity problem abuse drugs among public village Bualemo .

DISCUSSION

Circulation and abuse drugs Becomes wrong one problem national need handling are you serious from government , because could ruin the future generation young . Case abuse drugs in Indonesia always experience increase significant. Referring on BNN data in 2018 prevalence number abuse drugs among student at 13 moms city Provinces in Indonesia reached 3.2% or equivalent with 2.29 million people. While in 2017 it reached 1.77% or equivalent to 3,376,115 people on range ages 10-59 years .(Kompas.com, 2019)

Face threat these , various effort has conducted government like has issued Instructions President Number 6 of 2018 concerning plan action national prevention , eradication , abuse and circulation dark narcotics . This thing

conducted as effort manifest clean Indonesian people from drugs . Enforcement law to perpetrator act criminal narcotics already many conducted by apparatus law . However on reality problem abuse drugs the more increase by him that required role active from government village , community and apparatus enforcer law in create environment clean drugs . Through Thematic Community Service Activities this is the BNN together college student cooperate do strategy prevention abuse drugs among public especially in the village Bualemo. Strategy carried out in prevent abuse drugs in share two as following :

a. Strategy Preventive

Strategy preventive could meant as strategy prevention . Strategy preventive conducted for take steps , prevent and reduce possibility occur unwanted things in the future come (Gang Shunkui, 2019). Object from strategy preventive this is public specifically generation young. Strategy preventive consist of 3 activities among others:

1. Workshop

Workshop activities carried out on 21 September 2021 through Zoom Meeting app with involving the BNN of North Gorontalo Regency , Head of Village, Device Village, student, and public village Bualemo districts. Destination activity this give description BNN strategy in prevent abuse drug focused on eradication , prosecution and maximizing use of technology media in prevention abuse drugs. Besides Therefore , the BNN Runs the synergy Among party private , government and public in Realizing a Shining Indonesia Clean drugs.

2. Socialization

Activity socialization implemented on October 9 , 2021 at the Village Office Bualemo . Activity socialization this involve Government village, coral cadets , students and society . join guest speakers are also present Amanda Luciana 's mother who gave Theory with approach technical and tactical with payload Theory in the form of : procedures , tasks , functions and Responsibilities of the Prevention Team abuse drugs include : Volunteer team , rehabilitation and intelligence . Then next by interviewees second Sri Nanang 's mother Meiske Kamba, who gave meter with approach theory with payload Theory in the form of : impact , consequence , violation norm law and dropping penalty as set on provision Constitution Number 35 of 2009 concerning Narcotics .

3. Door to Door Campaign

Activity door to door anti- drug campaign implemented on October 19 , 2021 by college student Thematic KKN participants with visit houses public village Bualemo districts. Destination activity door to door campaign is give socialization by short , finalist and give appeal how method face if there is indicated community _ do abuse drugs . College student Thematic KKN participants has succeed do campaign to location Four Hamlets in the Village Bualemo . This door to door campaign very effective for measure knowledge and understanding public about danger abuse drugs . Proven from Results survey conducted _ as much as 87.6% of the community village Bualemo already understand and realize danger abuse drugs among society .

b. Strategy Repressive

Strategy repressive is strategy prosecution act criminal narcotics . Strategy repressive realized in form handling report complaint indicated community abuse drugs among society . Strategy repressive done in prevent abuse drugs among public is do urine test to people in the village Bualemo . Urine test done on October 9 , 2021 with involving 11 people consisting of from : device village , coral cadets and part society . Destination from activity this is detect existence content drugs too late in body .

CONCLUSION

The implementation of thematic KKN activities in Bualemo Village, it can be concluded that the strategies taken in preventing drug abuse are divided into two, namely preventive and repressive strategies. Preventive strategies include: workshops, outreach and door to door campaigns, volunteers and intelligence, while the repressive strategy is to conduct urine tests to the public.
