guided in accordance with what is stated in the Act of Notary and Notary Code. Both of these provisions are equipped with strict sanctions for the offenders.8 A cooperation agreement between the bank and the notary had violated Law of Notary and Notary Code provisions. Based on the consideration that the notary has frequently been asked the bank makes a loan agreement under bank intervention. Treaty clause is mostly determined by the bank, but it is basically a notary public office should certainly serve the interests of society facing him without any previous binding. In terms of lending constituted with a credit agreement, the credit agreement may call for special attention by both the bank as a creditor or by the customer as a debtor, because the credit agreement has a very important function in the provision, management and credit management itself.

The results of the study that PT. Bank Tabungan Negara in carrying out banking activities also has a partner or peer to facilitate banking activities, for example, PT. Bank Tabungan Negara Branch Office of Pekalongan have a Notary PPAT colleagues in making a credit agreement, because when PT. Bank Tabungan Negara would like to make a credit agreement by using Collateral Mortgage PT. Bank Tabungan Negara should collaborate by a notary that serves to determine that the collateral that will be used later is a guarantee of legitimate goods and not problematic before the law and authorize or legalize the agreement to be made.

The role of the notary in the system of lending conducted by the bank is to provide legal certainty for the parties to the credit agreement, besides the role of the Notary as well as the authorities to check against collateral in the form of Encumbrance to ascertain whether the goods the guarantee is valid in eyes of the law or not, or to avoid if there is a possibility in which the collateral Mortgage guarantees made in the extant legal dispute or case law. Deed of agreement legalized or warmerking and checked by a notary is something that is done to reduce the negative factor as that achievement was given in the form of money, goods.

Notary also has an additional role as a credit agreement between PT. Bank Tabungan Negara and its customers is completed, the Notary must go to office BPN to make the process Roya against the collateral used in the deal because if this is not done by a Notary after the deal is completed, it can give rise to a legal case in which the collateral is still tied to collateral agreements before causing collateral can not be used again as collateral Mortgage in the credit agreement in the next agreement, because in the Land office records Mortgage collateral is still tied to an agreement with the previous agreement,
